

Reynolds® Bold & Sassy Black Del-Pak® Containers Perk Up Your Sales.

Elegant black Del-Pak containers and lids help you strut your stuff. Show off your delicatessen and home meal replacement foods. Versatile polypropylene works even for oily and acidic items. Safe for warming food in microwave oven. Black, faceted containers and snap-on lids put sizzle in your sales. Same outstanding performance as white and natural Del-Pak containers.

BLACK DEL-PAK® CONTAINER

Item No.	Cont.* Color	Size	Quantity	Shipping Wt.	Cube
RD616**	Black	16 oz.	500/Case	14.48	2.15

*Polypropylene ** Ask about other sizes.

Perfect for plain and fancy salads — pasta and blackened shrimp dressed in oil and vinegar is shown here.

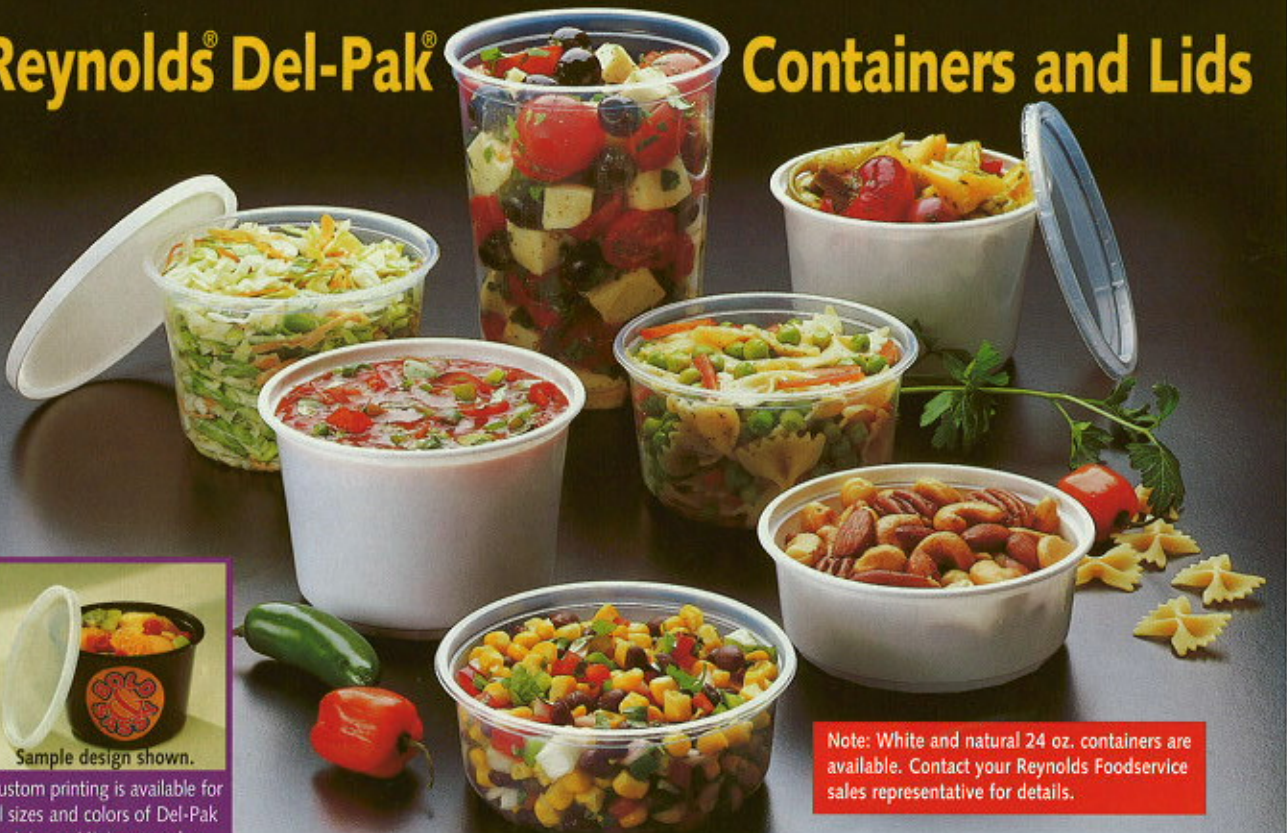

Ideal for citrus fruit salads (shown), tomato-based sauces and other acidic foods. Secure snap-on lid.

Microwaveable. Warm up foods* — such as oven-roasted potatoes shown — to serving temperature.

*See back of flyer for appropriate usage.

Reynolds® Del-Pak®

Containers and Lids

Sample design shown.
Custom printing is available for all sizes and colors of Del-Pak containers. Minimum orders are required. Ask your Reynolds Foodservice sales representative for details.

Note: White and natural 24 oz. containers are available. Contact your Reynolds Foodservice sales representative for details.

White and improved clarity natural clear Del-Pak containers

come in a full range of convenient sizes — 8, 12, 16, 24 and 32 ounces.

Del-Pak polypropylene containers outperform other plastic containers for oily and acidic foods. Because there is no taste or odor transfer, foods retain their flavors.

Sturdy Del-Pak containers stack and de-nest smoothly. They resist breaking, tearing or cracking. Gauge for gauge, they are stronger than comparable polystyrene containers.

Del-Pak containers can be used in microwave oven to warm food to serving temperature.

APPROPRIATE USAGE

Container lid must be loosened for use in the microwave oven. Foodservice testing is recommended before providing microwave instructions to retail customers.

Tight, secure sealing means foods stay fresh and flavorful. One-size snap-on lid fits all containers. Lids can be ordered in clear or white low density polyethylene or in clear thermoformed polypropylene.
